

Bill Shrink

Bank of Advance offers another convenient product to help you save money. And like all other online banking products: IT'S FREE!

 When viewing your transactions in online banking you will see this symbol next to your online bill payments or your debit card transactions. These offers come from the company and change on a regular basis. If you do not want to see these offers, simply click the **"Disable Offers"** and your page will be returned to it's normal view.

Bill Shrink is 100% secure, just like the rest of your online banking account.

Please be aware that we and our online banking and BillPay services providers (1) do not endorse or recommend any merchant, (2) offer no warranties for their products and services, and (3) shall have no liability for the results of your use of the products and services.
